

LIPID SHIELD SPF 30

1.7 oz | 39 ingredients

PROTECTION THAT MOVES WITH YOU

Epicutis® Lipid Shield is a daily mineral SPF 30 formulated with non-nano zinc oxide to provide broad-spectrum protection while actively supporting skin health. Powered by proprietary IPC technology developed at Princeton University, TSC helps reduce UV-induced redness, smooth fine lines and wrinkles, and protect against collagen breakdown.

To boost skin resilience under sun exposure, the formula features soothing, antioxidant-rich botanicals. Bisabolol (from chamomile) calms irritation, Dipotassium Glycyrrhizinate (from licorice root) helps reduce redness and even tone, and Aloe Vera Extract hydrates and supports barrier repair.

Free from chemical UV filters, preservatives, and harsh additives, Lipid Shield delivers clean, effective, sun protection.

SHIELDING + SOOTHING INGREDIENTS:

- **Zinc Oxide** to block UV damage
- **TSC** to decrease redness, fight inflammation + prevent collagen breakdown
- **Dipotassium Glycyrrhizinate** to decrease redness + even skin tone
- **Aloe Vera Extract** to provide hydration + antioxidant defense
